

Noble Nwala

Front-End Web Developer

<https://nobility.netlify.app>

EDUCATION

University of Uyo, Nigeria

2015-2020

Bachelor of Engineering in the field of Mechanical Engineering.

EXPERIENCE

Nordit

Created this fully functional App using HTML SCSS and ReactJs as well as with libraries such as MomentJs and React-dates. It enables easy monitoring of all the user's financial activities.

Dab Kitchen

A fully responsive e-commerce site created to showcase my frontend skills with HTML, CSS and vanilla Javascript.

Nobility

This is my portfolio site which showcases my skills in frontend web development, featuring a collection of projects I have completed and am currently working on. Additionally, my site offers a glimpse into my personality and creativity, allowing visitors to get to know me beyond my technical skills.

SKILLS

- Proficient with HTML, CSS and JavaScript
- Good with Frameworks like ReactJs and SCSS
- Experience with Responsive Web Design
- Skillful with Corel Suite for any additional design for the User Interface.
- Following SEO best practices
- Familiarity with Git version control
- Slight backend Knowledge with Firebase Authentication and Database
